OUR HUMBLE STORY

In the late 2012, I, Kelvin C. Villaruz, began my career as a Software Developer working for a BPO company. Motivated by passion, I later decided to venture in the world of freelancing, which led me to an American client that allowed me to expand my knowledge in programming.

It was 2015, when I pursue my IT Network career that further broaden my knowledge in the field of Network Infrastructure, Network Security, Point of Sales (POS), and Surveillance Cameras.

Armed with courage and skills gained from many experiences, I started the group named **KCV I.T. Solutions** on December 2020. Despite being in the midst of a pandemic, we built an independent team that contributes to the services we offered. My group is strongly motivated by the desire to put bread and stability on their household.

On November 2023, at the age of 32, I was invited by Siemon on one of their events, *Siemon Night of Appreciation,* and was awarded the "Star on the Rise" award.
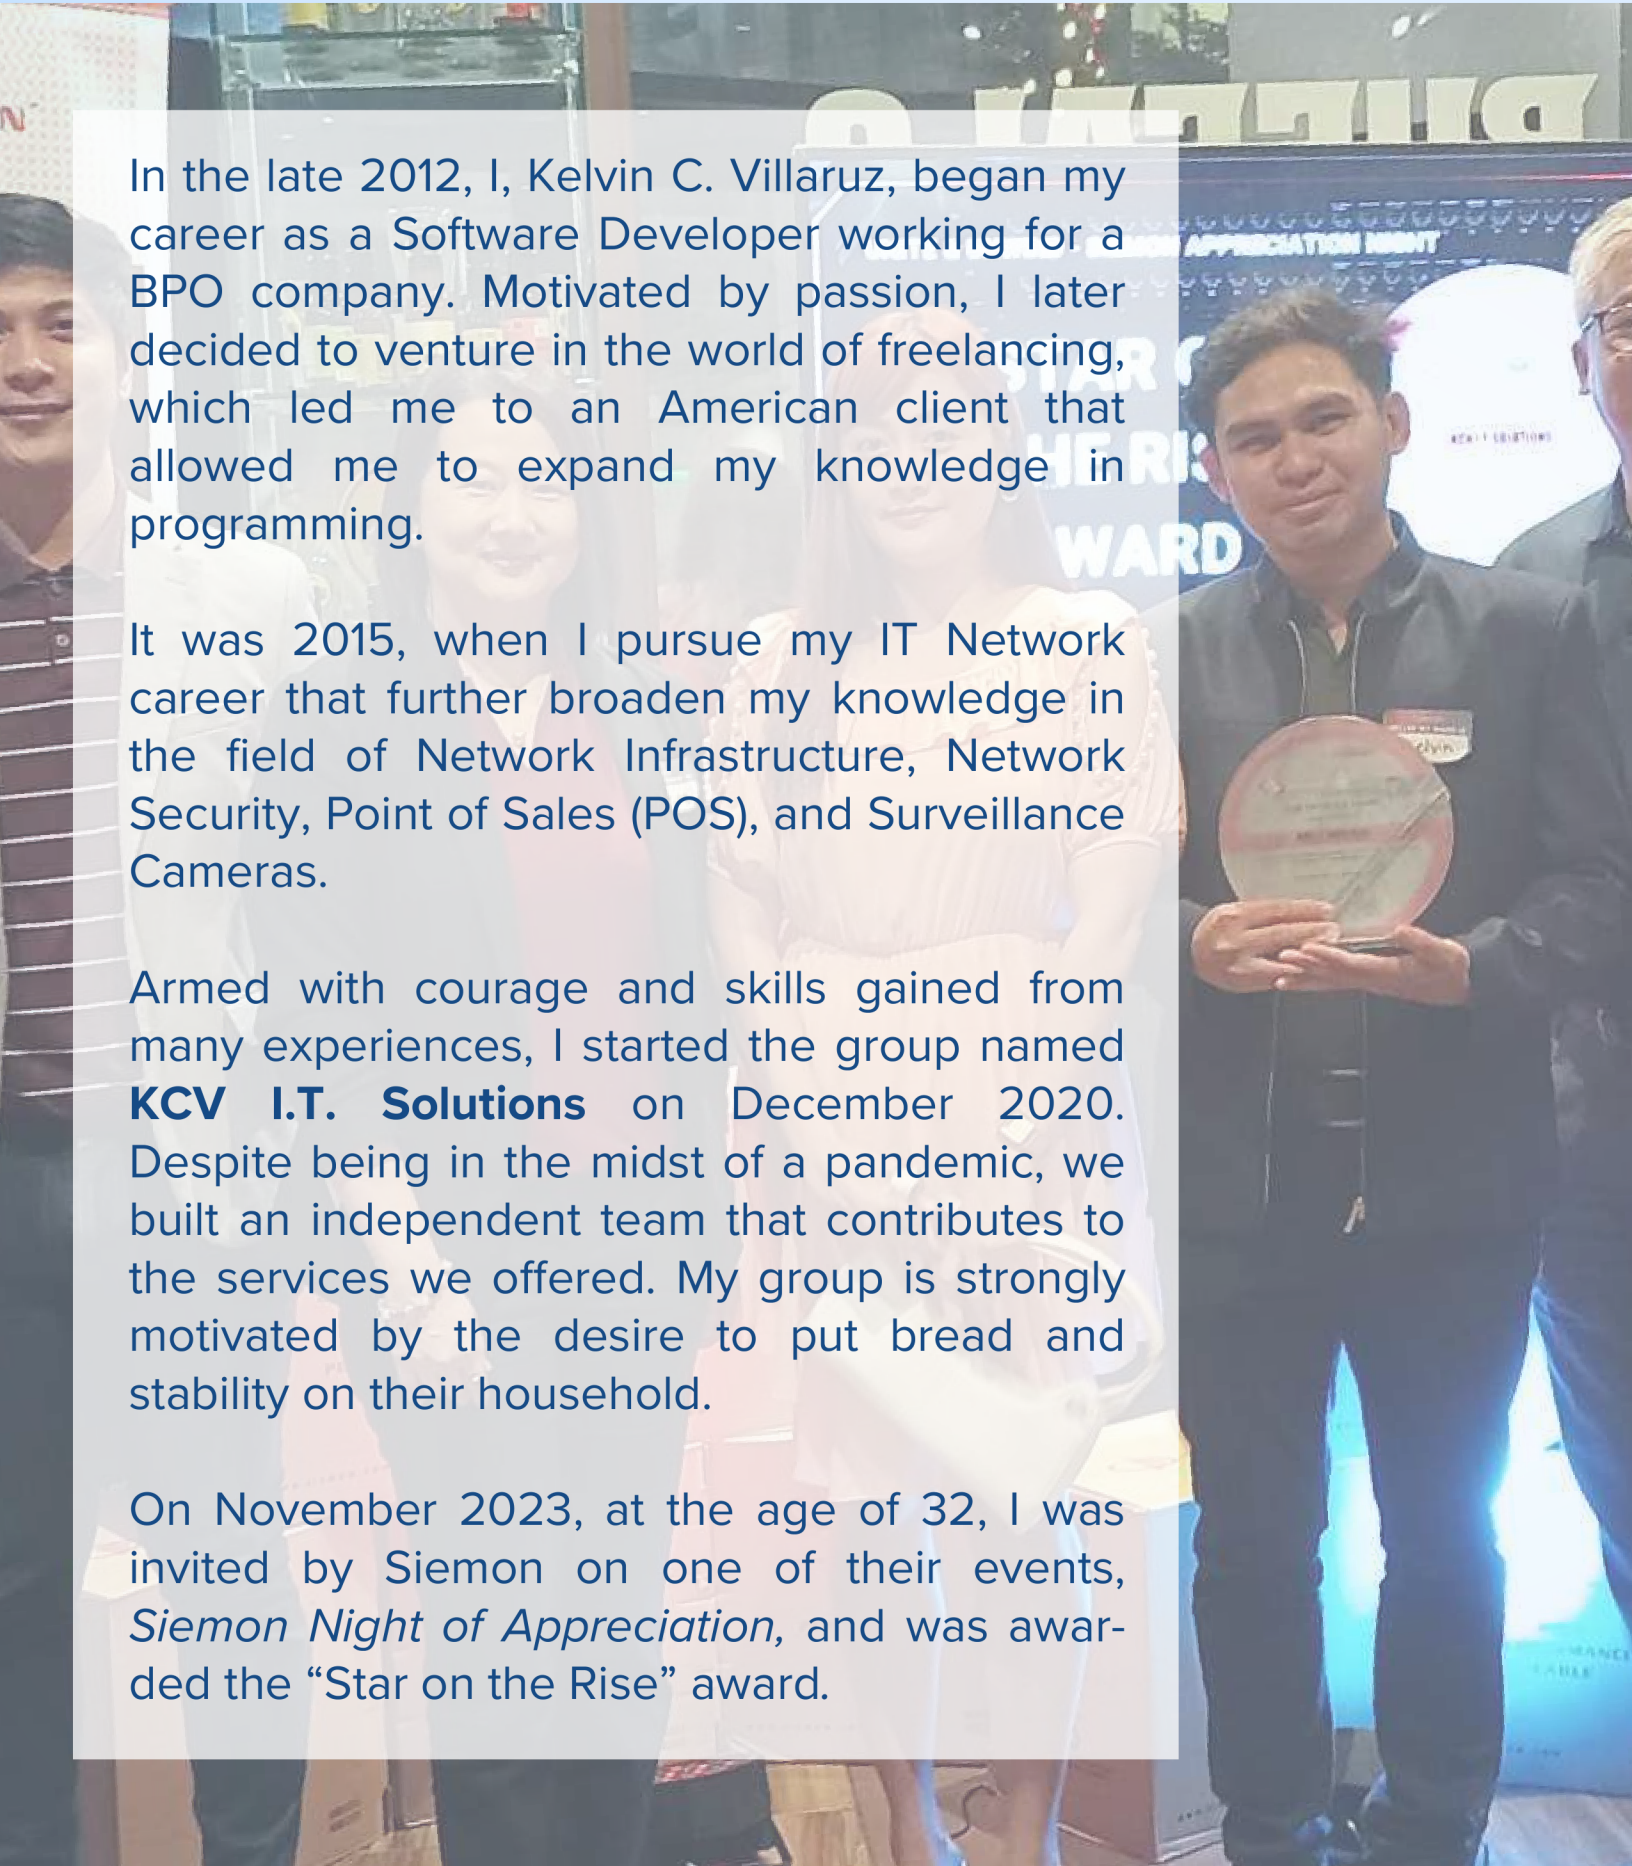

OUR VISION

KCV I.T. Solutions aims to be one of the leading, advanced and trusted I.T. solution providers in the field of creative design, development, and infotech space. To be known for providing "Innovation at its finest."

OUR VALUES

GOD ABOVE ALL THINGS

Unity and Teamwork - We collaborate effectively within our team and with our partners and clients. We value contributions of each individual.

Integrity - We act with honesty, transparency, and respect in all our interactions. We honor commitments and responsibilities.

Hardwork and perseverance - We strive to find new and better ways to solve problems and deliver solutions.

Humility and humble heart - We are willing to learn from others and serve a higher purpose to our society.

Adherance to Quality - We uphold high standards of excellence and professionalism in our work. We ensure that our solutions are efficient and effective.

OUR MISSION

Our organization exists to provide innovative and customized I.T solutions that will meet the needs and expectations of our clients.

To be responsible for the development and growth of our team.

To promote integrity and fairness with our clients.

And finally, to be an agent of change to our country, the Philippines.

WHAT WE DO

KCV I.T. Solutions provides complete solutions and services of Structured Cabling System, Software and Web Development, Creative Designs, and CCTV.

CREATIVE DESIGN
We dive deeper to create our clients art a masterpiece.

STRUCTURED CABLING SYSTEM
Cables should be treated the same as we treat our Clients. From the ground-up, everything is in its proper place.

SURVEILLANCE CAMERAS
Everything boils down to the number one concern of KCV: your SECURITY. Our top priority well guaranteed.

IT PRODUCTS
We only recommend trusted product line at your convenience.

IT CONSULTANCY
Let's start here and allow us to turn your questions into sustainable solutions.

SOFTWARE AND WEB DEVELOPMENT
We make sure that our client gets what they envision. WYSWYG is our core principle when it comes to development.

WHAT WE PROVIDE

One of the pillars of a good service is to ensure that what you provide meets the industry quality and safety standards.
We make sure that we provide at the level of highest quality possible.
